

BAVARIAN CREAM CAKE

A ROMA CATERING TRADITION

Delight your Senses

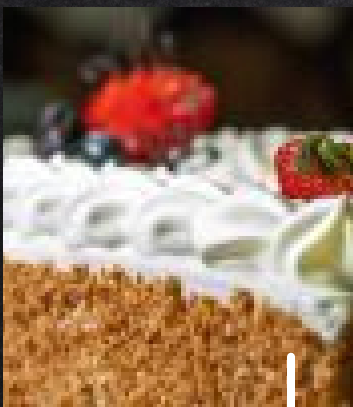

Bavarian cream cake has at its core, a delicate and velvety custard. This confectionary delight is a rich custard made with egg yolks, sugar, vanilla, and a touch of gelatin for a smooth texture. Whipped cream is then folded into the custard, adding an ethereal lightness. This custard is then sandwiched between layers of light and fluffy sponge cake. The result is a dessert that strikes the perfect balance between the sweetness of custard, the light, airy sponge and creamy texture of whipped cream.

What's Included?

Every Bavarian cream cake is handcrafted by our chefs and built fresh to order. They are garnished with fresh fruit and toasted coconut and have the included option to add a special message such as "Happy Birthday" in chocolate writing.

For an additional charge we now offer the option to customize your cake with a personal printed photo. Please allow our kitchen at least 1 business day to create your cake.

Sizes

1/4 Slab (8.5" x 12")

Serves 20-25

\$74.95

Personalize your event

Introducing Custom Printed Edible Photos

Customize ANY cake for only \$19.95

What sets Roma Catering apart is its commitment to making your celebration truly memorable. With the option of a custom printed edible photo, you can infuse your cake with a touch of personalization that will not only be delicious but also uniquely yours. These edible images, typically made from edible ink and rice paper, offer a creative and personalized touch to your traditional dessert.

A custom printed photo makes a great centerpiece for any event which tells a special story and celebrates the people and moments that matter most.

Whether you order one of our delicious Bavarian Cream Cakes or you want to add a personalized touch to any cake Roma Catering can create a custom printed edible photo for only \$19.95.
